

SAFETY DATA SHEET (SDS)

				Secti	ion 1. Identi	fication		
Product identifier 3200-0, 3200-1 and 3200-2								
Other means of identification Epoxy Plus Pearl finish								
Recommended use and restrictions on use Architectural paint for interior and exterior								
Initial supplier identifier MF Paints Inc. 1605 Dagenais Boulevard W, Laval, QC H7L 5A3 T:(450) 628-3831								
Emergency telephone number/restriction on use Canada – CANUTEC 24 hour number 613-996-6666								
Section 2. Hazard identification								
Classification of	hazardo	ous produ	ict (name (of the hazard class)		
				hazard - Carcino				
Information elements (symbols, signal words, hazard statements and precautionary statements of the category/subcategory)								
Warning								
H351 Suspected of								
						y precautions have been read and un		
						ed or concerned: Get medical attent	tion. P405 Store locked up.	
			into safe c	ontainer in accorda	ance with loca	l, regional or national regulations.		
Other hazards k	nown	None	G .	- 1	• 4 • /• •			
				ction 3. Compos	sition/inform	nation on ingredients		
Chemical name	(commo	n name/s	ynonyms)			CAS number or other	Concentration (%)	
	1					13463-67-7	< 25	
Dipropylene glyc	col monoi	metnyi eti	her			34590-94-8	< 2	
Ethylene glycol						107-21-1	< 2	
Kaolin	1 1	<u>, 1 , 1</u>				92704-41-1/1332-58-7	< 5	
Diethylene glycol	l monobu	ityl ether		a	4 59 4 93	112-34-5	< 2	
					4. First-aid			
Inhalation						table for breathing. Immediately ca		
Ingestion	IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. NEVER give anything by mouth if victim is rapidly losing consciousness, or is unconscious or convulsing. Rinse mouth thoroughly with water. Have victim drink two glasses of water. If							
Skin contact		vomiting occurs naturally, have victim lean forward to reduce risk of aspiration. Call a doctor if you feel unwell. IF ON SKIN: Rinse skin with water.						
Eye contact				sly with water.				
					None			
					None In all cases, call a doctor. Do not forget this document.

						etion of clean-up. Ensure clean-up	s conducted by trained personnel	
Absorb spillage to prevent material-damage. Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8).								
						aupment (bee beenon 0).		
	Methods and materials for containment and cleaning up Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then							
place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product.								
Notify the appropri			-			internal may pose the su	us us of spinod product.	

Section 7. Handling and storage

Precautions for safe handling

Wear protective gloves/ protective clothing/ eye protection/ face protection.

Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8.

Conditions for safe storage, including any incompatibilities

Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.

Section 8. Exposure controls/Personal protection

Control parameters (biological limit values or exposure limit values and source of those values)

Exposure limits: CAS 34590-94-8 ACGIH – TLV-TWA 100 ppm (STEL 150 ppm) & PEL-TWA 100 ppm; DUST ACGIH – TLV-TWA 1 mg/m³ & PEL-TWA 5 mg/m³ (respirable fraction) & 15 mg/m³ (total dust);

Appropriate engineering controls

Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

Individual protection measures/personal protective equipment

Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.

Section 9. Physical and chemical properties						
Appearance, physical state/colour Liquid	Vapour pressure Not available					
Odour Characteristic	Vapour density Not available					
Odour threshold Not available	Relative density 3200-0: 1.29					
	3200-1: 1.269					
	3200-2: 1.256					
pH Not available	Solubility Not available					
Melting/freezing point Not available	Partition coefficient - n-octanol/water Not available					
Initial boiling point/range Not available	Auto-ignition temperature Not available					
Flash point > 93°C	Decomposition temperature Not available					
Evaporation rate Not available	Viscosity Not available					
Flammability (solids and gases) Not available	VOC Not available					
Upper and lower flammability/explosive limits Not available	Other None known					
Section 10. Stability and reactivity						
Reactivity						
Does not react under the recommended storage and handling conditions prescribed.						
Chemical stability						
Stable under the recommended storage and handling conditions prescribed.						
Possibility of hazardous reactions						
None known						
Conditions to avoid (static discharge, shock or vibration)						
None known						
Incompatible materials						
Oxidizing materials; etc.						
Hazardous decomposition products						
None known						

Section 11. Toxicological information					
Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact)					
None					
Symptoms related to the physical, chemical and toxicological characteristics					
None					
Delayed and immediate effects (chronic effects from short-term and long-term exposure)					
Skin Sensitization – No data available; Respiratory Sensitization – No data available; Germ Cell Mutagenicity – No data available; Carcinogenicity – No ingredient listed by IARC, ACGIH, NTP or OSHA; Reproductive Toxicity – No data available; Specific Target Organ Toxicity — Single Exposure – No data available; Specific Target Organ Toxicity — Repeated Exposure – No data available; Aspiration Hazard – No data available; Health Hazards Not Otherwise Classified – No data available.					
Numerical measures of toxicity (ATE; LD ₅₀ & LC ₅₀)					
CAS 34590-94-8 LD ₅₀ (oral, rat) 5220 mg/kg; CAS 112-34-5 LD ₅₀ Oral - Rat - 5660 mg/kg; LD ₅₀ Dermal - Rabbit - 2700 mg/kg;					
ATE not available in this document.					
Section 12. Ecological information					
Ecotoxicity (aquatic and terrestrial information) No data available					
Persistence and degradability No data available					
Bioaccumulative potential No bioaccumulation is to be expected.					
Mobility in soil No data available					
Other adverse effects No data available					
Section 13. Disposal considerations					
Information on safe handling for disposal/methods of disposal/contaminated packaging					
Dispose of contents/container into safe container in accordance with local, regional or national regulations.					
Section 14. Transport information					
UN number; Proper shipping name; Class(es); Packing group (PG) of the TDG Regulations					
Not Regulated					
UN number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime)					
Not Regulated					
UN number; Proper shipping name; Class(es); Packing group (PG) of the IATA (air)					
Not Regulated					
Special precautions (transport/conveyance) None					
Environmental hazards (IMDG or other) None					
Bulk transport (usually more than 450 L in capacity) Possible					
Section 15. Regulatory information					
Safety/health Canadian regulations specificsRefer to Section 2 for the appropriate classification. This product has been classified in acco with the hazard criteria of the Hazardous Products Regulations (HPR).	rdance				
Environmental Canadian regulations specifics Refer to Section 3 for ingredient(s) of the DSL					
Safety/health/environmental outside regulations specifics					
United States OSHA information: This product is regulated according to OSHA (29 CFR).					
United States EPA (Environmental Protection Agency) information: 40 CFR Refer to the ingredients listed in Section 3 & Sections 12; 13 & 14.					
United States TCSA information: Refer to the ingredients listed in Section 3.					
California Droposition (5). This product does not contain increation to the tracture to the State of California to course concern on other representative hours					

California Proposition 65: This product does not contain ingredients that are known to the State of California to cause cancer or other reproductive harm.

Section 16. Other information					
Date of the latest revision of the safety data sheet February 09, 2018 version 1 (NSS ENTREPRISE INC.)
