

# SAFETY DATA SHEET (SDS)

			EET (SDS)				
		1. Identi	fication				
	Product identifier 370-0						
Other means of identification       Premium white primer sealer							
Recommended use and restrictions on use To seal and fill cement blocks							
	Initial supplier identifier Peintures MF Inc. 1605 Boulevard Dagenais O, Laval, QC H7L 5A3 T:(450) 628-3831						
Emergency telep	<b>Emergency telephone number/restriction on use</b> Canada – CANUTEC 24 hour number 613-996-6666						
	Section 2. H	Hazard id	entification				
Classification of	hazardous product (name of the category or sub						
	ist to eliminate this inhalation hazard - Carcinogeni						
	Information elements (symbols, signal words, hazard statements and precautionary statements of the category/subcategory)						
gloves/protective Dispose of conter	tial instructions before use. P202 Do not handle unt clothing/eye protection/face protection. 308 + P312 nts/container into safe container in accordance with	3 IF expos	ed or concerned: Get medical attentio				
Other hazards k	nown None						
	Section 3. Composition	on/inforn	nation on ingredients				
Chemical name	(common name/synonyms)		CAS number or other	Concentration (%)			
Titanium dioxide			13463-67-7	< 10			
Nepheline syenite	2		37244-96-5	< 20			
Calcium carbonat			1317-65-3	< 40			
Ethylene glycol			107-21-1	< 2			
	Section 4.	First-aid					
Inhalation	IF INHALED: Remove person to fresh air and ke			a doctor			
Ingestion	IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. NEVER give anything by mouth if victim is rapidly losing consciousness, or is unconscious or convulsing. Rinse mouth thoroughly with water. Have victim drink two glasses of water. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration. Call a doctor if you feel unwell.						
Skin contact	IF ON SKIN: Rinse skin with water.						
Eye contact	IF IN EYES, Rinse cautiously with water.	т.					
Most important symptoms and effects (acute or delayed) None							
Indication of im			call a doctor. Do not forget this doct	iment.			
	Section 5. Fi						
	of the hazardous product (hazardous combustion	on produc	ts)				
	Carbon oxides and other irritant/toxic gases and fumes.						
Suitable and unsuitable extinguishing media							
In case of fire: Use carbon dioxide, chemical powder agent and appropriate foam to extinguish surrounding products.							
Special protective equipment and precautions for fire-fighters							
During a fire, irritating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper							
protective equipment and self-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans.							
Move containers f	Move containers from fire area if it can be done without risk. Water spray may be useful in cooling equipment and cans exposed to heat and flame.						
	Section 6. Accidental release measures						
Personal precautions, protective equipment and emergency procedures							
Absorb spillage to prevent material-damage. Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8).							
Methods and materials for containment and cleaning up							
place material into	Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, ther place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product						
Notify the approp	riate authorities as required.						

#### Section 7. Handling and storage

### **Precautions for safe handling**

Wear protective gloves/ protective clothing/ eye protection/ face protection.

Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8.

#### Conditions for safe storage, including any incompatibilities

Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.

## Section 8. Exposure controls/Personal protection

Control parameters (biological limit values or exposure limit values and source of those values) Exposure limits: CAS 1317-65-3 – PEL-TWA 15 mg/m<sup>3</sup> (total dust) & 5 mg/m<sup>3</sup> (respirable fraction); CAS 13463-67-7 ACGIH – TLV-TWA 10 mg/m<sup>3</sup> & PEL-TWA 10 mg/m<sup>3</sup>; DUST ACGIH – TLV-TWA 1 mg/m<sup>3</sup> & PEL-TWA 5 mg/m<sup>3</sup> (respirable fraction) & 15 mg/m<sup>3</sup> (total dust);

#### **Appropriate engineering controls**

Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

#### Individual protection measures/personal protective equipment

Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.

Section 9. Physical and chemical properties				
Appearance, physical state/colour Liquid	Vapour pressure Not available			
Odour Characteristic Vapour density Not available				
Odour threshold Not available	Relative density 1.434			
<b>pH</b> Not available	Solubility Not available			
Melting/freezing point       Not available	Partition coefficient - n-octanol/water Not available			
Initial boiling point/range Not available	Auto-ignition temperature Not available			
Flash point > 93°C	Decomposition temperature Not available			
<b>Evaporation rate</b> Not available <b>Viscosity</b> Not available				
Flammability (solids and gases) Not available	VOC Not available			
Upper and lower flammability/explosive limits Not available	Other None known			
Section 10. Stability and reactivity				
Reactivity				
Does not react under the recommended storage and handling conditions prescri	bed.			
Chemical stability				
Stable under the recommended storage and handling conditions prescribed.				
Possibility of hazardous reactions				
None known				
Conditions to avoid (static discharge, shock or vibration)				
None known				
Incompatible materials				
Oxidizing materials; etc.				
Hazardous decomposition products				
None known				

Section 11. Toxicological information				
Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact)				
Avoid creating dust to eliminate this inhalation hazard - Suspected of causing cancer.				
Symptoms related to the physical, chemical and toxicological characteristics				
None				
Delayed and immediate effects (chronic effects from short-term and long-term exposure)				
Skin Sensitization – No data available; Respiratory Sensitization – No data available; Germ Cell Mutagenicity – No data available; Carcinogenicity – Ingredient listed by IARC, ACGIH, NTP or OSHA; Reproductive Toxicity – No data available; Specific Target Organ Toxicity — Single Exposure – No data available; Specific Target Organ Toxicity — Repeated Exposure – No data available; Aspiration Hazard – No data available; Health Hazards Not Otherwise Classified – No data available.				
Numerical measures of toxicity (ATE; LD <sub>50</sub> & LC <sub>50</sub> )				
None ATE not available in this document.				
Section 12. Ecological information				
Ecotoxicity (aquatic and terrestrial information) No data available				
Persistence and degradability No data available				
<b>Bioaccumulative potential</b> No bioaccumulation is to be expected.				
Mobility in soil No data available				
Other adverse effects No data available				
Section 13. Disposal considerations				
Information on safe handling for disposal/methods of disposal/contaminated packaging				
Dispose of contents/container into safe container in accordance with local, regional or national regulations.				
Section 14. Transport information				
UN number; Proper shipping name; Class(es); Packing group (PG) of the TDG Regulations				
Not Regulated				
UN number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime)				
Not Regulated				
UN number; Proper shipping name; Class(es); Packing group (PG) of the IATA (air)				
Not Regulated				
Special precautions (transport/conveyance) None				
Environmental hazards (IMDG or other) None				
Bulk transport (usually more than 450 L in capacity) Possible				
Section 15. Regulatory information				
Safety/health Canadian regulations specifics     Refer to Section 2 for the appropriate classification. This product has been classified in accord with the hazard criteria of the Hazardous Products Regulations (HPR).	ance			
Environmental Canadian regulations specifics Refer to Section 3 for ingredient(s) of the DSL				
Safety/health/environmental outside regulations specifics				
United States OSHA information: This product is regulated according to OSHA (29 CFR).				
United States EPA (Environmental Protection Agency) information: 40 CFR Refer to the ingredients listed in Section 3 & Sections 12; 13 & 14.				
United States TCSA information: Refer to the ingredients listed in Section 3.				

California Proposition 65: This product contains ingredients that are known to the State of California to cause cancer or other reproductive harm.

Section 16. Other information				
Date of the latest revision of the safety data sheet February 09, 2018 version 1 (NSS ENTREPRISE INC.)
