

SAFETY DATA SHEET (SDS) Section 1. Identification

		TY DATA SHEET (SDS)			
	Se	ection 1. Identification			
Product identifie	r 7070-0				
Other means of i	dentification Proline Eco primer sealer	zero VOC			
Recommended use and restrictions on use Architectural paint for indoor and outdoor use					
Initial supplier identifier MF Paints Inc. 1605 Dagenais Boulevard W, Laval, QC H7L 5A3 T:(450) 628-3831					
	Emergency telephone number/restriction on use Canada – CANUTEC 24 hour number 613-996-6666				
		on 2. Hazard identification			
Classification of hazardous product (name of the category or subcategory of the hazard class)					
Carcinogenicity (of subcategory of the hazard class)			
) Organs			
	Specific target organ toxicity – repeated exposure (category 1), Organs Information elements (symbols, signal words, hazard statements and precautionary statements of the category/subcategory)				
Danger H350 May cause of H372 Causes dam P201 Obtain spec dusts or mists. P2 gloves/protective	cancer. age to organs (lungs) through prolonged or ial instructions before use. P202 Do not han 264 Wash hands/nails/face thoroughly after clothing/eye protection/face protection. P30		ad and understood. P260 Do not breathe ke when using this product. P280 Wear ical attention. P314 Get medical attention		
Other hazards k	nown None				
		position/information on ingredients			
Chamical name (common name/synonyms)	CAS number or other	Concentration (%)		
Calcium carbonat		1317-65-3	< 25		
		7727-43-7			
Barium sulphate			< 10		
Titanium dioxide		13463-67-7	<15		
Silica crystalline,		14808-60-7	0.4		
		ion 4. First-aid measures			
Inhalation	IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a doctor if you feel unwell.				
Ingestion Skin contact	 IF SWALLOWED: Immediately call a doctor. DO NOT INDUCE VOMITING. NEVER give anything by mouth if victim is rapidly losing consciousness, or is unconscious or convulsing. Rinse mouth thoroughly with water. Have victim drink two glasses of water. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration. IF ON SKIN: wash with plenty of water. 				
Eye contact	IF IN EYES, Rinse cautiously with water	for several minutes (15-20).			
	symptoms and effects (acute or delayed)	None			
	nediate medical attention/special treatme		ot forget this document

Section 7. Handling and storage

Precautions for safe handling

Wear gloves/protective clothing/eye protection/face protection.

Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8.

Conditions for safe storage, including any incompatibilities

Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.

Section 8. Exposure controls/Personal protection

Control parameters (biological limit values or exposure limit values and source of those values) Exposure limits: CAS 13463-67-7 ACGIH – TLV-TWA 10 mg/m³ & PEL-TWA 10 mg/m³; DUST ACGIH – TLV-TWA 1 mg/m³ & PEL-TWA 5 mg/m³ (respirable fraction) & 15 mg/m³ (total dust); CAS 14808-60-7 ACGIH – TLV-TWA 0.025 mg/m³ & PEL-TWA 0.1 mg/m³;

Appropriate engineering controls

Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

Individual protection measures/personal protective equipment

Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.

Section 9. Physical and chemical properties				
Appearance, physical state/colour Liquid	Vapour pressure Not available			
Odour Characteristic	Vapour density Not available			
Odour threshold Not available	Relative density 1.488			
pH Not available	Solubility Not available			
Melting/freezing point Not available	Partition coefficient - n-octanol/water Not available			
Initial boiling point/range Not available	Auto-ignition temperature Not available			
Flash point Not available	Decomposition temperature Not available			
Evaporation rate Not available	Viscosity 2200 cPs @ 40°C			
Flammability (solids and gases) Not available	VOC Not available			
Upper and lower flammability/explosive limits Not available	Other None known			
Section 10. Stability and reactivity				
Reactivity				
Does not react under the recommended storage and handling conditions prescribed.				
Chemical stability				
Stable under the recommended storage and handling conditions prescribed.				
Possibility of hazardous reactions				
None known				
Conditions to avoid (static discharge, shock or vibration)				
None known				
Incompatible materials				
Oxidizing materials; etc.				
Hazardous decomposition products				
None known				

Section 11. Toxicological information			
Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact)			
May cause cancer. Causes damage to organs (lungs) through prolonged or repeated exposure (inhalation).			
Symptoms related to the physical, chemical and toxicological characteristics			
None known			
Delayed and immediate effects (chronic effects from short-term and long-term exposure)			
Skin Sensitization – No data available; Respiratory Sensitization – No data available; Germ Cell Mutagenicity – No data available; Carcinogenicity – Ingredient listed by IARC, ACGIH, NTP or OSHA; Reproductive Toxicity – No data available; Specific Target Organ Toxicity — Single Exposure – Possible; Specific Target Organ Toxicity — Repeated Exposure – Possible; Aspiration Hazard – No data available; Health Hazards Not Otherwise Classified – No data available.			
Numerical measures of toxicity (ATE; LD ₅₀ & LC ₅₀)			
None			
ATE not available in this document.			
Section 12. Ecological information			
Ecotoxicity (aquatic and terrestrial information) No data available for the product.			
Persistence and degradability No data available			
Bioaccumulative potential No data available			
Mobility in soil No data available			
Other adverse effects No data available			
Section 13. Disposal considerations			
Information on safe handling for disposal/methods of disposal/contaminated packaging			
Dispose of contents/container into safe container in accordance with local, regional or national regulations.			
Section 14. Transport information			
UN number; Proper shipping name; Class(es); Packing group (PG) of the TDG Regulations			
NOT REGULATED			
UN number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime)			
NOT REGULATED			
UN number; Proper shipping name; Class(es); Packing group (PG) of the IATA (air)			
NOT REGULATED			
Special precautions (transport/conveyance) None			
Environmental hazards (IMDG or other) None			
Bulk transport (usually more than 450 L in capacity) Possible			
Section 15. Regulatory information			
Safety/health Canadian regulations specifics Refer to Section 2 for the appropriate classification. This product has been classified in accordance			
with the hazard criteria of the Hazardous Products Regulations (HPR).			
Environmental Canadian regulations specifics Refer to Section 3 for ingredient(s) of the DSL			
Safety/health/environmental outside regulations specifics			
United States OSHA information: This product is regulated according to OSHA (29 CFR).			
United States EPA (Environmental Protection Agency) information: 40 CFR Refer to the ingredients listed in Section 3 & Sections 12; 13 & 14.			
United States TCSA information: Refer to the ingredients listed in Section 3.			
California Proposition 65: This product contains an ingredient known to the State of California to cause cancer or other reproductive harm.
