

DRYFALL PAINT

753 Series

100% Acrylic Flat Black

Technical Data Sheet

DESCRIPTION

A latex **100% acrylic** based dryfall paint developed for spraying factory and warehouse ceilings.

CHARACTERISTICS		TECHNICAL INFORMATION					
<p>When applied at a height exceeding 18 feet, with less than 50% humidity level, any dryfall paint particles that have fallen to the floor may be swept away with a broom or vacuumed.</p> <p>This paint develops a chemical bond with the metal which makes it extremely difficult to scratch down to bare metal.</p> <p>This latex based product emits a very faint odour and is not a fire hazard.</p> <p>This dryfall paint will prevent flash rust from appearing on the surface during the application.</p> <p>Not a health hazard This paint does not contain crystalline silica.</p>		Drying Time	<table border="1"> <tr> <td>Recoat: 4 hours</td> <td>To touch: 1 hour</td> </tr> <tr> <td colspan="2">At 25° Celsius Relative humidity at 50%</td> </tr> </table>	Recoat: 4 hours	To touch: 1 hour	At 25° Celsius Relative humidity at 50%	
		Recoat: 4 hours	To touch: 1 hour				
		At 25° Celsius Relative humidity at 50%					
		Surface Coverage (for 946 ml)	70 m ² (750 pi ²) for steel deck ceilings with ceiling joists 140 m ² (1500 pi ²) for a flat ceiling				
		Cleaning	Lukewarm soapy water				
		Dilution	None				
		Solids by Weight	48%				
Solids by Volume	36%						
VOC	< 150 g/L						
GLOSS	<table border="1"> <tr> <td>60°</td> <td>2%</td> </tr> <tr> <td>85°</td> <td>3%</td> </tr> </table>	60°	2%	85°	3%		
60°	2%						
85°	3%						
Flat	May vary according to the texture of surface to which it will be applied on

USE	LIMITATIONS						
<ul style="list-style-type: none"> - For interior use - Developed for galvanized steel or other metal ceilings with more than 18 feet high - Can be used on bare or painted surfaces - Suitable for both commercial or institutional projects 	<ul style="list-style-type: none"> - Do not apply if temperature is below 10°C - Will not protect against rust in a humid area - Depending on the height of the ceiling, it is preferable to cover the floor, when the relative humidity is higher than 50%. 						

SURFACE PREPARATION

The surface must be dry and clean, without dust, oil, grease, rust and soap. On painted surfaces, it is recommended to clean with T.S.P. (trisodium phosphate) in order to eliminate any contaminant that might harm the adhesion or the hardening of the product. Glossy surfaces must be sanded and dusted before painting.

SUGGESTED PRIMER

No primer required.

APPLICATION

Stir thoroughly before applying. It is important to keep the moisture content below 50% throughout the application. This is to keep the dry fall properties at 18 feet.

WARRANTY

This product will give full satisfaction if applied according to the manufacturer's instructions. Manufacturer's liability is limited to the replacement of the product and does not include manpower if found defective upon inspection.

CAUTION

- Keep away from children
- Keep in a dry area between 10° C-30° C
- Keep lid closed when not used.
- Avoid freezing.

Dispose of the container in an environmentally-friendly manner.
