SAFETY DATA SHEET (SDS)

Section 1. Identification				
Product identifier 757-5				
Other means of i	dentification Dryfall paint latex acrylic, A Base			
Recommended u	se and restrictions on use Architectural paint for ceiling	gs		
Initial supplier id	lentifier MF Paints Inc. 1605 Dagenais Boulevard W,	Laval, QC H7L 5A3 T:(450) 628-383	31	
		24 hour number 613-996-6666		
	Section 2. Hazard id			
Classification of	hazardous product (name of the category or subcategory	v of the hazard class)		
Not regulated				
Information elen	nents (symbols, signal words, hazard statements and pred	cautionary statements of the categor	ry/subcategory)	
None				
Other hazards ki	nown None			
	Section 3. Composition/inform	mation on ingredients		
Chemical name ((common name/synonyms)	CAS number or other	Concentration (%)	
Dipropylene glyco	ol monomethyl ether	34590-94-8	< 1	
Calcium carbonate		1317-65-3	< 10	
Kaolin		92704-41-1/1332-58-7	< 5	
Diethylene glycol	monobutyl ether	112-34-5	< 1	
Nepheline syenite		37244-96-5	< 10	
Section 4. First-aid measures				
Inhalation IF INHALED: Remove person to fresh air and keep comfortable for breathing. Immediately call a doctor.				
Ingestion	IF SWALLOWED: Rinse mouth. Do NOT induce vom			
0	consciousness, or is unconscious or convulsing. Rinse mouth thoroughly with water. Have victim drink two glasses of water. If			
	vomiting occurs naturally, have victim lean forward to reduce risk of aspiration. Call a doctor if you feel unwell.			
Skin contact				
Eye contact	IF IN EYES, Rinse cautiously with water.			
Most important symptoms and effects (acute or delayed) None				
Indication of immediate medical attention/special treatment In all cases, call a doctor. Do not forget this document.				
	Section 5. Fire-fight			
Specific hazards of the hazardous product (hazardous combustion products)				
Carbon oxides and other irritant/toxic gases and fumes.				
Suitable and unsuitable extinguishing media				
In case of fire: Use carbon dioxide, chemical powder agent and appropriate foam to extinguish surrounding products.				
Special protective equipment and precautions for fire-fighters				
During a fire, irritating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper				
protective equipment and self-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans.				
Move containers from fire area if it can be done without risk. Water spray may be useful in cooling equipment and cans exposed to heat and flame.				
Section 6. Accidental release measures				
Personal precautions, protective equipment and emergency procedures				
Absorb spillage to prevent material-damage. Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel				
only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8).				
	terials for containment and cleaning up			
	release. Stop the leak if it can be done safely. Contain and a			
	a container for later disposal (see Section 13). Contaminated	l absorbent material may pose the sam	he hazards as the spilled product.	
Notify the appropriate authorities as required.				

Section 7. Handling and storage

Precautions for safe handling

Wear protective gloves/ protective clothing/ eye protection/ face protection.

Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8.

Conditions for safe storage, including any incompatibilities

Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.

Section 8. Exposure controls/Personal protection

Control parameters (biological limit values or exposure limit values and source of those values)

Exposure limits: CAS 34590-94-8 ACGIH – TLV-TWA 100 ppm (STEL 150 ppm) & PEL-TWA 100 ppm; DUST ACGIH – TLV-TWA 1 mg/m³ & PEL-TWA 5 mg/m³ (respirable fraction) & 15 mg/m³ (total dust);

Appropriate engineering controls

Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

Individual protection measures/personal protective equipment

Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.

Appearance, physical state/colour Liquid Vapour pressure Not available Odour Characteristic Vapour density Not available Odour Not available Relative density 1.192 pH Not available Relative density Not available Melting/freezing point Not available Partition coefficient - n-octanol/water Not available Initial boiling point/range Not available Partition coefficient - notanol/water Not available Flash point >93°C Decomposition temperature Not available Evaporation rate Not available VOC Not available Upper and lower flammability/sexplosive limits Not available Other None known Stable under the recommended storage	Section 9. PRODUCT IDENTIFIER -757-5 DATE & VERSION - February 09, 2018 VERSION 01

Section 11. Toxicological information Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact) None Symptoms related to the physical, chemical and toxicological characteristics None Delayed and immediate effects (chronic effects from short-term and long-term exposure) Skin Sensitization - No data available; Respiratory Sensitization - No data available; Germ Cell Mutagenicity - No data available; Carcinogenicity - No ingredient listed by IARC, ACGIH, NTP or OSHA; Reproductive Toxicity - No data available; Specific Target Organ Toxicity - Single Exposure – No data available; Specific Target Organ Toxicity — Repeated Exposure – No data available; Aspiration Hazard – No data available; Health Hazards Not Otherwise Classified - No data available. Numerical measures of toxicity (ATE; LD₅₀ & LC₅₀) CAS 34590-94-8 LD₅₀ (oral, rat) 5220 mg/kg; CAS 112-34-5 LD₅₀ Oral - Rat - 5660 mg/kg; LD₅₀ Dermal - Rabbit - 2700 mg/kg; ATE not available in this document. Section 12. Ecological information Ecotoxicity (aquatic and terrestrial information) No data available Persistence and degradability No data available **Bioaccumulative potential** No bioaccumulation is to be expected. Mobility in soil No data available Other adverse effects No data available Section 13. Disposal considerations Information on safe handling for disposal/methods of disposal/contaminated packaging Dispose of contents/container into safe container in accordance with local, regional or national regulations. Section 14. Transport information UN number; Proper shipping name; Class(es); Packing group (PG) of the TDG Regulations Not Regulated UN number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime) Not Regulated UN number; Proper shipping name; Class(es); Packing group (PG) of the IATA (air) Not Regulated Special precautions (transport/conveyance) None **Environmental hazards (IMDG or other)** None Bulk transport (usually more than 450 L in capacity) Possible Section 15. Regulatory information Safety/health Canadian regulations specifics Refer to Section 2 for the appropriate classification. This product has been classified in accordance with the hazard criteria of the Hazardous Products Regulations (HPR). Refer to Section 3 for ingredient(s) of the DSL **Environmental Canadian regulations specifics** Safety/health/environmental outside regulations specifics United States OSHA information: This product is regulated according to OSHA (29 CFR). United States EPA (Environmental Protection Agency) information: 40 CFR Refer to the ingredients listed in Section 3 & Sections 12; 13 & 14.

United States TCSA information: Refer to the ingredients listed in Section 3.

California Proposition 65: This product does not contain ingredients that are known to the State of California to cause cancer or other reproductive harm.
