

SAFETY DATA SHEET (SDS)

	Section 1. Identi	fication		
Product identifie	er 757-8			
Other means of identification Dryfall paint latex acrylic, neutral white				
Recommended use and restrictions on use Architectural paint for ceilings				
Initial supplier identifier MF Paints Inc. 1605 Dagenais Blvd W, Laval, QC H7L 5A3 T:(450) 628-3831				
Emergency telep	hone number/restriction on use Canada – CANUTEC 2	4 hour number 613-996-6666		
Section 2. Hazard identification				
Classification of hazardous product (name of the category or subcategory of the hazard class)				
	ust to eliminate this inhalation hazard - Carcinogenicity (Cate			
	nents (symbols, signal words, hazard statements and prec		ry/subcategory)	
Warning H351 Suspected of causing cancer. P201 Obtain special instructions before use. P202 Do not handle until all safety precautions have been read and understood. P280 Wear protective gloves/protective clothing/eye protection/face protection. 308 + P313 IF exposed or concerned: Get medical attention. P405 Store locked up. P501 Dispose of contents/container into safe container in accordance with local, regional or national regulations.				
Other hazards k				
~ ~ ~	Section 3. Composition/inform		2	
	(common name/synonyms)	CAS number or other	Concentration (%)	
Kaolin		92704-41-1/1332-58-7	< 15	
Titanium dioxide		13463-67-7	< 15	
Nepheline syenite		37244-96-5	< 10	
Calcium carbonate		1317-65-3	< 10	
Dipropylene glycol monomethyl ether		34590-94-8	< 1	
Diethylene glycol monobutyl ether		112-34-5	< 1	
	Section 4. First-aid	measures		
Inhalation	IF INHALED: Remove person to fresh air and keep comfor	rtable for breathing. Immediately call	a doctor.	
Ingestion	IF SWALLOWED: Rinse mouth. Do NOT induce vomi			
	consciousness, or is unconscious or convulsing. Rinse mou			
	vomiting occurs naturally, have victim lean forward to redu	ice risk of aspiration. Call a doctor if	you feel unwell.	
Skin contact	IF ON SKIN: Rinse skin with water.			
Eye contact	IF IN EYES, Rinse cautiously with water.			
Most important symptoms and effects (acute or delayed) None				
Indication of immediate medical attention/special treatment In all cases, call a doctor. Do not forget this document.				
Section 5. Fire-fighting measures				
Specific hazards of the hazardous product (hazardous combustion products)				
Carbon oxides and other irritant/toxic gases and fumes.				
Suitable and unsuitable extinguishing media				
In case of fire: Use carbon dioxide, chemical powder agent and appropriate foam to extinguish surrounding products.				
Special protective equipment and precautions for fire-fighters				
During a fire, irritating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper				
protective equipment and self-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans.				
Move containers f	from fire area if it can be done without risk. Water spray may b		ns exposed to heat and flame.	
	Section 6. Accidental re	lease measures		
Personal precaut	tions, protective equipment and emergency procedures			
	p prevent material-damage. Restrict access to area until compl		conducted by trained personnel	
only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8).				
Methods and materials for containment and cleaning up				
Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then				
-	place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product.			
Notify the appropriate authorities as required.				

Precautions for safe handling

Wear protective gloves/ protective clothing/ eye protection/ face protection.

Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8.

Conditions for safe storage, including any incompatibilities

Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.

Section 8. Exposure controls/Personal protection

Control parameters (biological limit values or exposure limit values and source of those values) Exposure limits: CAS 1317-65-3 – PEL-TWA 15 mg/m³ (total dust) & 5 mg/m³ (respirable fraction); CAS 13463-67-7 ACGIH – TLV-TWA 10 mg/m³ & PEL-TWA 10 mg/m³; DUST ACGIH – TLV-TWA 1 mg/m³ & PEL-TWA 5 mg/m³ (respirable fraction) & 15 mg/m³ (total dust);

Appropriate engineering controls

Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

Individual protection measures/personal protective equipment

Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.

Appearance, physical state/colour Liquid Vapour pressure Not available Odour Characteristic Vapour density Not available Odour threshold Not available Relative density 1.343 pH Not available Solubility Not available Not available Melting/freezing point Not available Partition coefficient - n-octanol/water Not available Initial boiling point/range Not available Auto-ignition temperature Not available Flash point > 93°C Decomposition temperature Not available Evaporation rate Not available Viscosity Not available Flammability (solids and gases) Not available VOC Not available Upper and lower flammability/explosive limits Not available Other None known

Evaporation rate Not available Viscosity Not available Flammability (solids and gases) Not available VOC Not available				
Flammability (solids and gases) Not available VOC Not available				
Upper and lower flammability/explosive limits Not available Other None known				
Section 10. Stability and reactivity				
Reactivity				
Does not react under the recommended storage and handling conditions prescribed.				
Chemical stability				
Stable under the recommended storage and handling conditions prescribed.				
Possibility of hazardous reactions				
None known				
Conditions to avoid (static discharge, shock or vibration)				
None known				
Incompatible materials				
Oxidizing materials; etc.				
Hazardous decomposition products				
None known				

Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact)			
Avoid creating dust to eliminate this inhalation hazard - Suspected of causing cancer.			
Symptoms related to the physical, chemical and toxicological characteristics			
None			
Delayed and immediate effects (chronic effects from short-term and long-term exposure)			
Skin Sensitization – No data available; Respiratory Sensitization – No data available; Germ Cell Mutagenicity – No data available; Carcinogenicity			
- Ingredient listed by IARC, ACGIH, NTP or OSHA; Reproductive Toxicity - No data available; Specific Target Organ Toxicity - Single Exposure			
- No data available; Specific Target Organ Toxicity — Repeated Exposure - No data available; Aspiration Hazard - No data available; Health			
Hazards Not Otherwise Classified – No data available.			
Numerical measures of toxicity (ATE; LD ₅₀ & LC ₅₀)			
None			
ATE not available in this document.			
Section 12. Ecological information			
Ecotoxicity (aquatic and terrestrial information) No data available			
Persistence and degradability No data available			
Bioaccumulative potential No bioaccumulation is to be expected.			
Mobility in soil No data available			
Other adverse effects No data available			
Section 13. Disposal considerations			
Information on safe handling for disposal/methods of disposal/contaminated packaging			
Dispose of contents/container into safe container in accordance with local, regional or national regulations.			
Section 14. Transport information			
UN number; Proper shipping name; Class(es); Packing group (PG) of the TDG Regulations			
Not Regulated			
UN number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime)			
Not Regulated			
UN number; Proper shipping name; Class(es); Packing group (PG) of the IATA (air)			
Not Regulated			
Special precautions (transport/conveyance) None			
Environmental hazards (IMDG or other) None			
Bulk transport (usually more than 450 L in capacity) Possible			
Section 15. Regulatory information			
Safety/health Canadian regulations specifics Refer to Section 2 for the appropriate classification. This product has been classified in accordance			
with the hazard criteria of the Hazardous Products Regulations (HPR).			
Environmental Canadian regulations specifics Refer to Section 3 for ingredient(s) of the DSL			
Safety/health/environmental outside regulations specifics			
United States OSHA information: This product is regulated according to OSHA (29 CFR).			
United States EPA (Environmental Protection Agency) information: 40 CFR Refer to the ingredients listed in Section 3 & Sections 12; 13 & 14.			
United States TCSA information: Refer to the ingredients listed in Section 3.			

California Proposition 65: This product contains ingredients that are known to the State of California to cause cancer or other reproductive harm.

Date of the latest revision of the safety data sheet February 09, 2018 version 1 (NSS ENTREPRISE INC.)
