## Precautions for safe handling

Wear protective gloves/ protective clothing/ eye protection/ face protection.

Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8.

### Conditions for safe storage, including any incompatibilities

Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.

## Section 8. Exposure controls/Personal protection

Control parameters (biological limit values or exposure limit values and source of those values) Exposure limits: CAS 34590-94-8 ACGIH – TLV-TWA 100 ppm (STEL 150 ppm) & PEL-TWA 100 ppm; DUST ACGIH – TLV-TWA 1 mg/m<sup>3</sup> & PEL-TWA 5 mg/m<sup>3</sup> (respirable fraction) & 15 mg/m<sup>3</sup> (total dust);

#### **Appropriate engineering controls**

Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

## Individual protection measures/personal protective equipment

Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.

Evaporation rate       Not available       Viscosity       Not available         Flammability (solids and gases)       Not available       VOC       Not available         Upper and lower flammability/explosive limits       Not available       Other       None known         Section 10. Stability and reactivity	available Auto-ignition temperature Not available				
Flammability (solids and gases)       Not available       VOC       Not available         Upper and lower flammability/explosive limits       Not available       Other       None known         Section 10. Stability and reactivity	<b>Decomposition temperature</b> Not available				
Upper and lower flammability/explosive limits         Not available         Other         None known           Section 10. Stability and reactivity	Viscosity Not available				
Section 10. Stability and reactivity					
	cplosive limits         Not available         Other         None known				
Deactivity	Section 10. Stability and reactivity				
Katuvity					
Does not react under the recommended storage and handling conditions prescribed.					
Chemical stability					
Stable under the recommended storage and handling conditions prescribed.					
Possibility of hazardous reactions					
None known					
Conditions to avoid (static discharge, shock or vibration)					
None known					
Incompatible materials					
Oxidizing materials; etc.					
Hazardous decomposition products					
None known					

Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact)				
None				
Symptoms related to the physical, chemical and toxicological characteristics				
None				
Delayed and immediate effects (chronic effects from short-term and long-term exposure)				
Skin Sensitization – No data available; Respiratory Sensitization – No data available; Germ Cell Mutagenicity – No data available; Carcinogenicity				
– No ingredient listed by IARC, ACGIH, NTP or OSHA; Reproductive Toxicity – No data available; Specific Target Organ Toxicity – Single				
Exposure – No data available; Specific Target Organ Toxicity — Repeated Exposure – No data available; Aspiration Hazard – No data available;				
Health Hazards Not Otherwise Classified – No data available.				
Numerical measures of toxicity (ATE; LD <sub>50</sub> & LC <sub>50</sub> )				
CAS 34590-94-8 LD <sub>50</sub> (oral, rat) 5220 mg/kg; CAS 112-34-5 LD <sub>50</sub> Oral - Rat - 5660 mg/kg; LD <sub>50</sub> Dermal - Rabbit - 2700 mg/kg;				
ATE not available in this document.				
Section 12. Ecological information				
Ecotoxicity (aquatic and terrestrial information) No data available				
Persistence and degradability No data available				
<b>Bioaccumulative potential</b> No bioaccumulation is to be expected.				
Mobility in soil No data available				
Other adverse effects No data available				
Section 13. Disposal considerations				
Information on safe handling for disposal/methods of disposal/contaminated packaging				
Dispose of contents/container into safe container in accordance with local, regional or national regulations.				
Section 14. Transport information				
UN number; Proper shipping name; Class(es); Packing group (PG) of the TDG Regulations				
Not Regulated				
UN number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime)				
Not Regulated				
UN number; Proper shipping name; Class(es); Packing group (PG) of the IATA (air)				
Not Regulated				
Special precautions (transport/conveyance) None				
Environmental hazards (IMDG or other) None				
Bulk transport (usually more than 450 L in capacity) Possible				
Section 15. Regulatory information				
Safety/health Canadian regulations specifics Refer to Section 2 for the appropriate classification. This product has been classified in accordance				
with the hazard criteria of the Hazardous Products Regulations (HPR).				
Environmental Canadian regulations specifics Refer to Section 3 for ingredient(s) of the DSL				
Safety/health/environmental outside regulations specifics				
United States OSHA information: This product is regulated according to OSHA (29 CFR).				
United States EPA (Environmental Protection Agency) information: 40 CFR Refer to the ingredients listed in Section 3 & Sections 12; 13 & 14.				
United States TCSA information: Refer to the ingredients listed in Section 3.				

. .

/•

California Proposition 65: This product does not contain ingredients that are known to the State of California to cause cancer or other reproductive harm.

Date of the lates	Date of the latest revision of the safety data sheet February 09, 2018 version 1 (NSS ENTREPRISE INC.)
